

## CONTENTS OF VOLUME 274

Thromboxane A <sub>2</sub> -Induced Vascular Endothelial Cell Damage and Respiratory Smooth Muscle Cell Contraction: Inhibition by Flunarizine, a Ca <sup>2+</sup> -Overload Blocker. <i>F. De Clerck, W. Loots, Y. Somers, L. Van Gorp, A. Verheyen and L. Wouters</i> . . . . .	4
Nicotine is a Competitive Antagonist for H <sub>1</sub> -Receptors in Smooth Muscles. <i>Z. S. Ercan and R. K. Türker</i> . . . . .	24
Cardiovascular Effects of Drugs Acting on the Autonomous Nervous System, in Awake, Normotensive and Hypertensive Rats. <i>M. Davy, M. Heimbürger, M. Midol-Monnet, F. Beslot and Y. Cohen</i> . . . . .	31
Effects of Nipradilol (K-351) on Cardiac Function in Anesthetized Open-Chest Dogs. <i>M. Sakanashi, K. Noguchi, S. Takeo, H. Ito, Y. Miyamoto and T. Kato</i> . . . . .	47
Renin Response to Captopril in Conscious Dogs Pretreated with Indomethacin or Propranolol. <i>T. Kamijo and S. Satoh</i> . . . . .	56
Beta-Adrenergic Receptors in Rat Myocardium During the Development and Reversal of Hypertrophy and Following Chronic Infusions of Angiotensin II and Epinephrine. <i>M. E. Upsher and P. A. Khairallah</i> . . . . .	65
Influence of Verapamil on the Digoxin-Induced Inotropic Effect in Guinea-Pig Isolated Atria. <i>P. Dorigo and I. Maragno</i> . . . . .	80
Effect of Aprindine, Verapamil and Nifedipine on Ventricular Fibrillation Threshold in Isolated Rabbit Hearts. <i>A. A. Almotrefi</i> . . . . .	89
Efficacy of Disopyramide in Comparison with Verapamil and Propranolol in the Prevention of Acetylcholine-Induced Atrial Fibrillation in the Dog. <i>L. Bertrix, Q. Timour Chah, J. Lang, M. Lakhal, K. Bouzouita and G. Faucon</i> . . . . .	97
Effects of a Fluorinated Pyrimidinedione Anti-Cancer Drug, 5-Fluoro-1-(Tetrahydro-2-Furanyl)-2, 4-Pyrimidinedione (FT), and Related Compounds on Nigro-Striatal Dopaminergic Neurons in the Central Nervous System. <i>K. Toide, N. Unemi and T. Segawa</i> . . . . .	111
Selective Decrease of Hypothalamic Noradrenaline by Cysteamine. <i>L. Vécsei, M. Balázs, I. Bollók and G. Telegdy</i> . . . . .	125
Effects of Adenosine Triphosphate on Neuron Activities in the Lateral and Medial Vestibular Nuclei. <i>T. Mori, S. Kashii, I. Matsuoka, M. Sasa and S. Takaori</i> . . . . .	129
Suloctidil Treatment Prevents the Development of Post-traumatic Feline Spinal Cord Ischemia. <i>D. L. Wolf and E. D. Hall</i> . . . . .	139
Adaptation of Skeletal Muscle Energy Metabolism to Repeated Hypoxic-Normoxic Exposures and Drug Treatment. <i>O. Pastoris, M. Dossena, A. Gorini, L. Vercesi and G. Benzi</i> . . . . .	145
Effects of Thyrotropin-Releasing Hormone on Pancreatic Exocrine Secretion in the Dog. <i>F. Yamagishi, F. Iijima, K. Iwatsuki, I. Komiya, T. Yamada and S. Chiba</i> . . . . .	159
The Effect of Ranitidine on Exocrine Pancreatic Secretion in the Rat. <i>J. Chariot, C. Rozé and C. Scarpignato</i> . . . . .	166
Opioid Agonist and Antagonist Properties of Diastereoisomeric N-Tetrahydronoroxymorphones in Mice. <i>K. Ramabadran and M.-F. Jen</i> . . . . .	180
Mechanism of Flavoxate Antispasmodic Activity. Comparative in vitro Studies. <i>P. Cazzulani, R. Panzarasa, C. De Stefani, G. Graziani</i> . . . . .	189
Interactions of 5-Hydroxytryptamine and Tricyclic Antidepressants in the Rat Stomach Strip and the Guinea-Pig Ileum. <i>P. A. Akah and F. M. Tayo</i> . . . . .	201

Interaction between Non-Steroidal Antiinflammatory Agents and Sodium Salicylate in the Relaxant Response of Dog Renal Arteries to Angiotensin II. <i>M. Miyazaki, M. Yamamoto and N. Toda</i> . . . . .	210
Calcium Blocking Properties of Pirofurol. <i>B. Pourrias, F. Huerta, R. Santamaria and C. Bowe</i> . . . . .	223
Comparative Study of Five Beta-Adrenoceptor Blocking Agents on Sinoatrial Conduction Time in Isolated Blood-Perfused Canine Atria. <i>M. Shimotori, M. Kobayashi and S. Chiba</i> . . . . .	240
Comparative Antiarrhythmic and Local Anaesthetic Effects of Piperazine Citrate and Lignocaine Hydrochloride. <i>G. Onuaguluchi and I. N. A. Igbo</i> . . . . .	253
Antiarrhythmic and Electrophysiological Actions of Flecainide, Bepridil and Amiodarone on Isolated Heart Preparations during Controlled Hypoxia. <i>H. Dietrich, U. Borchard, D. Hafner and C. Hirth</i> . . . . .	267
Effects of Indomethacin and Etodolac on Coronary Blood Flow and Other Cardiovascular Variables in Propranolol-Treated Dogs. <i>G. Beaulieu</i> . . . . .	283
Involvement of Peripheral Dopamine Receptors in the Antihypertensive Effect of a New Ergoline Derivative (355/1057). <i>P. Salvati and G. Bianchi</i> . . . . .	291
Serotonin-Induced Contraction of Canine Saphenous Vein: Mediation by 5-HT <sub>1</sub> Receptors. <i>M. Tuncer, N. Dogan, M. Ilhan and S. O. Kayaalp</i> . . . . .	305
Influence of "Selective" Antimuscarinic Agents on Gastric Acid Secretion and Motility. <i>A. Subissi, M. Guelfi, C. A. Maggi and A. Meli</i> . . . . .	313
Effects of Indomethacin on Plasma Fibrinogen Levels in Rats with Tissue Injury. <i>A. C. Gavotto, J. A. Palma and S. B. Villagra</i> . . . . .	320
Contact Group: "Drug Metabolism and Pharmacokinetics" of the Fund for Medical Scientific Research, Belgium, Abstracts of Communications presented at the meeting of Beerse, November 23, 1984. . . . .	328
Contents of Volume 274 . . . . .	335
